GlassBrowserAI Integrations

Generated: 2026-01-09T18:00:05.306727Z

1. TradeLocker

- REST: accounts, positions, orders, history, instruments
- Stream: Socket.IO with subscribe + SyncEnd
- Requires accNum header and routeId for some endpoints

2. OpenAI

- Chat + tools via Responses API
- Vision requires GPT-5.x models
- Realtime audio via openaiLiveService and WebSocket bridge

3. Gemini

- Text-to-speech (optional)
- Configured via Settings secrets

4. MT5 Bridge

- Local FastAPI WS bridge for ticks
- Optional; used by MT5 panel
